RE: Mr. Richard Ivy  
Architect  
380 Cleveland Place  
Virginia Beach, VA 23462

We hereby commend Mr. Richard Ivy for an outstanding job he has done for our church. He has designed our building project in 1999 and coordinated all efforts from city requirements and approvals to building contractors and engineers, as well as people working on site.

Mr. Ivy was cordial at all times. His pleasant approach and respond to our congregation was always commendable making our transactions with him go smooth. He was very sensitive to our needs and demands for the whole project and he was always there through phone or physically available to answer questions providing quick answers and recommendations. Mr. Ivy has saved the Church several thousands of dollars because of his prudent, sensible, and honest practice of his profession.

Richard has been always easy to work with. He was very upfront with the scheduling of the work process. He would make himself accessible at all possible times. He was prompt with his work delivery and in fulfilling his promises. We're very happy with his performance.

One of the very obvious quality that our congregation noticed about Richard is his unquestionable experience in the practice of his trade and profession - from client relationship and planning to the actual construction and finish. We're glad we had Mr. Richard Ivy as our architect. We're so pleased and happy for being one of his satisfied clients.

In the love of Christ

  
Rommel M. Catilung  
Pastor, FEBC
